

## Mobility projects in Spain: language and cultural immersion with professional experience

Considering the multilingual reality of the **European Union** and the growing interest in Spanish culture in the world, our mission is to promote Cordoba and Spanish culture abroad through experience exchange.

Andalusia is one of the top tourist destinations in Spain and the language tourism is one way to offer an approach not only to the main monuments of the city, but also the culture and city life.

Our centre of cultural and language exchange in Cordoba offers students from other countries Spanish through cultural immersion programmes. In addition we give possibilities to gain professional experience during traineeships in the framework of European Programmes such as Leonardo da Vinci or Erasmus. We teach in an innovative and dynamic way, through culture, theatre, cuisine and folk traditions. Fábrica de Idiomas is a meeting place for students and offers an alternative to spending free time in a multicultural environment.

Córdoba: UNESCO World Heritage Site, cultural melting point

## Who we are

We're philologists with several years of experience in teaching languages, especially Spanish as a foreign language and English for Spanish students. We have experience in organizing **exchange projects under the European Programme Leonardo da Vinci and in drafting successful proposals for European exchange grants**. With great enthusiasm and energy we share our fascination for Cordoba through cultural immersion programmes and language.

## LLP Programmes: opportunity to immerse into different European culture

For projects destined in Spain (Experience Exchange VETPRO or Professional Placement IVT, PLM) we offer:

- language preparation of participants
- cultural activities included in the Spanish course
- placement search / managing agenda of professional visits and experience exchange programme
- accommodation and maintenance during the placement in Spanish host families
- tutor help and supervision of the stay
- project evaluation (Mobility Europass, Europass Language Passport)
- help in drafting innovative grant project

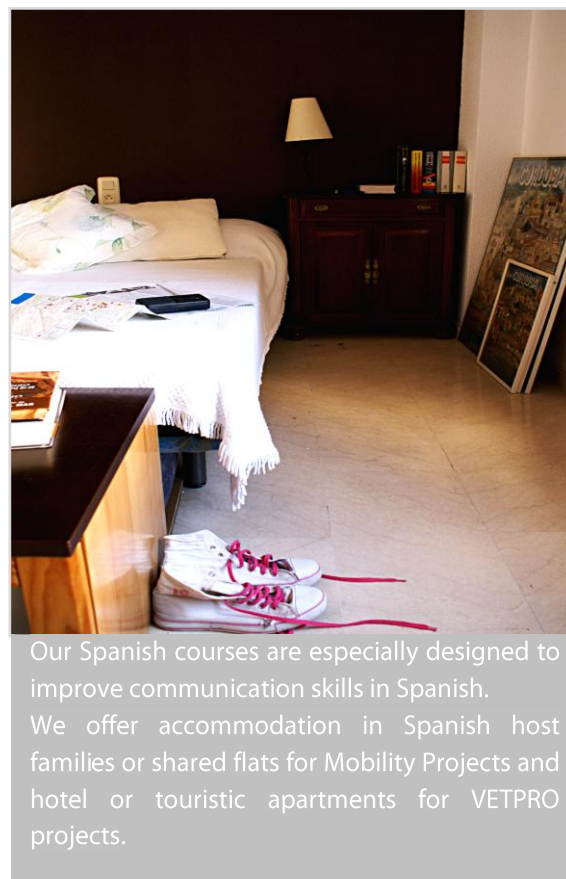

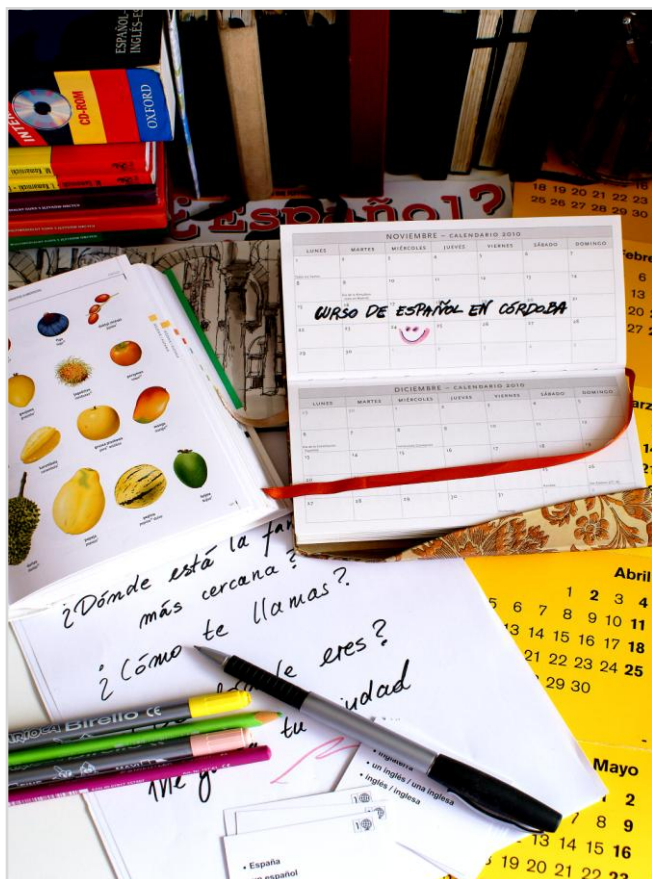

European Programmes give students from all over Europe the opportunity to immerse into a different culture, learn languages and gain professional experience.

## Spanish course in Cordoba for Mobility Projects. Spanish through the culture

Our wide range of Spanish courses is based on the cultural programme of Cordoba. Participants of **European Programmes** will attend classes in our school, where they will learn the basis of language through communication activities, as well as participate in "outdoor" sessions, i.e. walks in Córdoba, touristic visits, going out for tapas and excursions. This will enable them to combine learning Spanish with the active participation in the cultural life of the city.

## Accommodation

In addition to Spanish classes and cultural activities, we deal with finding accommodation for our students who may live in shared apartments with Spanish students or with Spanish families.

Our Spanish courses are especially designed to improve communication skills in Spanish. We offer accommodation in Spanish host families or shared flats for Mobility Projects and hotel or touristic apartments for VETPRO projects.

Do not hesitate to contact us in order to consult your project with us.
