Please specify your activities: We are a small vocational school in a small town in Bulgaria. Our school is the only vocational school in our county. We are currently working with the Life Long Learning Program. We are specifically working with The Leonardo da Vinci program. Our school offers four specialties. We prepare students to be mechanics for automation, electricity, agricultural machines, and operators for making clothes (tailors). Some students also study Vehicle Safety and how to properly drive a vehicle. They also study Tractor Safety and how to properly drive different sizes of tractors. They study the different parts of machines and how they work. They have practical experience in large factories with the machinery in the factories. Different students have practical experience with installing the electric systems in the school. Different students are capable of working in all areas concerned with clothes. They also have experience making sheets and other materials for beds.

Planned project

Short description of the planned project: We want to have Mobility for the Students. We want our students to work in another country for a couple of weeks where they will get real world experience in a different cultural surrounding. We want them to learn another language so they can be able to teach the students a different language when they return. We want them to have a certificate so they will be able to find a quality job in their field of expertise. We want to be able to share Bulgarian culture with different countries.

Description of partners

Tasks of the partner in the project: find a quality job in Poland. Provide housing and meals for the students. Give a certificate upon completion of the Project. Have cultural opportunities for the students.
