OSSERVATORIO SCOLASTICO Service- Municipality of Monza

The “*Osservatorio Scolastico*” Service comes to life with the main aim of monitoring and tackling (thus: *observing*) the non-completion of school in the area of Monza Municipality, through the “APE- Anagraphic Study of school-age People” project.

It foresees the continuous update of a database of pupils attending schools in Monza, as well as children and teenagers leaving in Monza but attending schools in different municipalities.

Such a useful tool has been of vital importance also for programming and for strategy, by giving an up-to-date, well-structured and accurate picture of the context, where educational interventions could be effectively planned.

Since its establishment, the “*Osservatorio Scolastico*” service has been constantly expanding its areas of competences, by acquiring a store of knowledge, competences and by enhancing its know-how and networks, in order to become a unique case in the whole Lombardy region.

It is nowadays made up of the following offices: Counseling and Training Office and Training Coordination Office.
