Website:

Please specify your activities: Our Complex of Schools prepares students to different kinds of occupations connected with informatics and electronics. After graduation our learners can work as IT specialists and electro-technicians.

Planned project

- Short description of the planned project:
- Vocational training for students
 - We would like to cooperate with schools from Europe, which educate learners in similar fields, in order to use the knowledge they have already obtained and put it into practice and create a project or a programme in a field of informatics or electronics.
 - Thanks to an international cooperation our learners will be also able to develop their knowledge of foreign languages.

Description of partners

- Tasks of the partner in the project:
- We address our project to schools educating learners in similar areas of interests or organizations which also deal with these areas.
 - We look for partners who would like to give our students a vocational training, as well as give opportunities to get in touch with new techniques and technology, share experience and teach how to cooperate.
